Fully committed to Drive Modernizing and Reindustrializing Hong Kong,
 Building Smart City and Promoting GBA cooperation and collaboration!

Directions from our SIT1

- 完善創科生態圈
 - 豐富創科人才庫
 - 建設智慧城市
 - 深化與內地的創科合作
- 奮力推進香港的創科發展

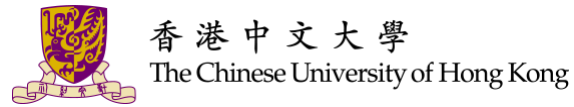

Our Efforts:

- Help build the Innovation and Technology Ecosystem in Hong Kong
- Help groom Innovation and Technology talents
- Help construct Smart City in Hong Kong
- Cooperate with other entities in Greater Bay Area

Technologies Rise Above the Challenges

Building Ecosystem and Nurturing Talents

Universities Collaboration since 2011

In the past **10 years**, LSCM endeavours to work with various **local Universities** to **build up** the **ecosystem** of **INNOVATION TECHNOLOGIES**

70 Projects were Conducted

Near \$400,000,000

Total Project Costs

Over 30 Research Teams

**Cooperating with over 50 SME
and start-ups**

*HK is the Satellite
Technology Leader
in the Region !*

GNSS Multipath Mitigation for Crowded City Areas

Mong Kong in HKSAR

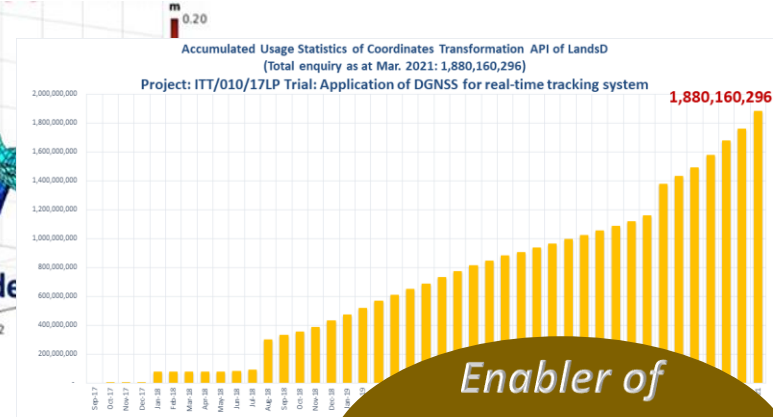

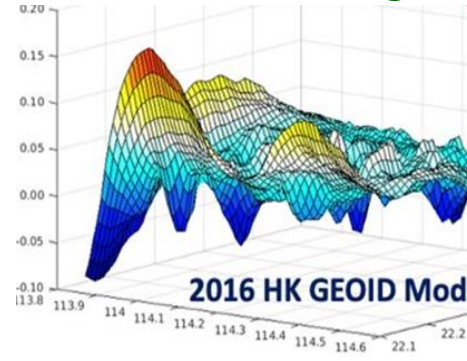

Wan Chai in HKSAR

Site	Accuracy	Northing (m)	Easting (m)
Mong Kok	Smartphone result (Cyan)	24.98	11.54
	Our platform result (Blue)	8.4	6.2
Wan Chai	Smartphone result (Cyan)	9.32	20.52
	Our platform result (Blue)	8.4	6.2

Solving Crowded Streets GPS accuracy problems

Differential Global Positioning System (DGPS) for Location and Surveying

GNSS heighting Enable Hong Kong Survey with High Accuracy (1 cm)

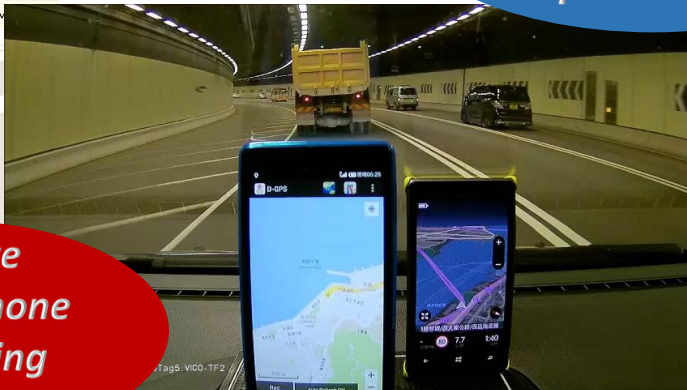

Enabler of Satellite Surveying in HK

80 million downloads per month!

Smart Lamppost with BLE IoT Network

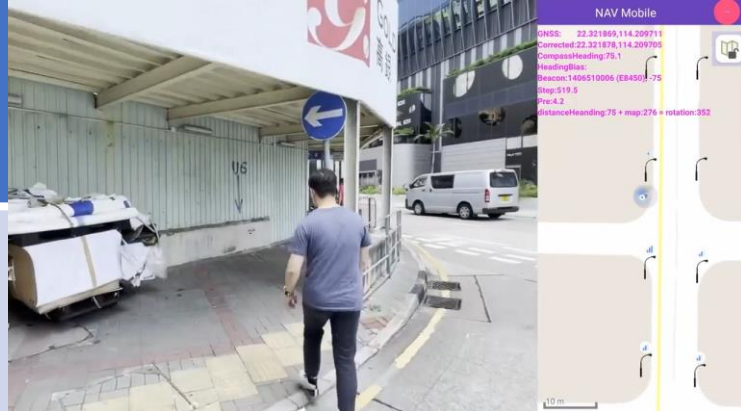

Provide Positioning Services for Pedestrians Even Without Satellite Coverage

Highways Department The Government of the Hong Kong Special Administrative Region

Improve Mobile Phone locating accuracy

	Pure GNSS Positioning	BLE Corrected Positioning
Root Mean Square Error	4.9m	3.4m (even without satellite coverage)

Positioning Error Comparison Against Terrestrial Measurement (Trial at HKSTP)

Enabler of autonomous vehicles and improved tourist's experiences

Satellite Remote Sensing

Related Projects

- ENVISAT Remote Sensing Satellite Ground Receiving Station
- SAR Images for Deformation Monitoring (Airport runway, man-made island, etc.)
- InSAR Deformation Analysis
- Integration of DInSAR and SAR

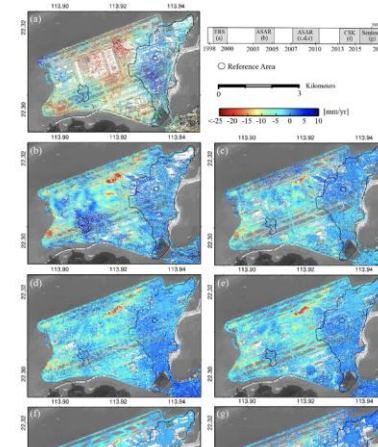

Satellite Remote Sensing to keep Infrastructure Healthy!

香港中文大學

→ MOU with TLB to explore the **e-SmartPort** technology to enhance HK's status as the international transportation center

eSPP Port Community Platform

"Weaving Out" a True Port Community!

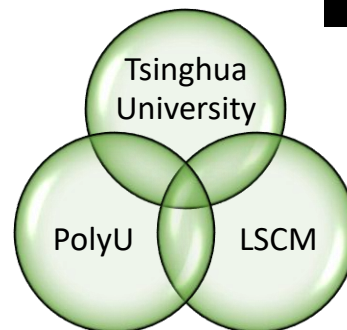

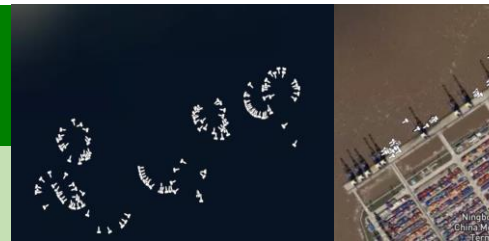

Port Traffic – AIS-based Tracking and Analytics Platform

- Automatic Identification System (AIS) tracks transceivers on ships
- AIS data is publicly available from Marine Dept, maritime authorities, aishub.net consortium and other open-source projects

Port Information System

- We shall develop a Port Information System as the Info Infrastructure for smart services of real-time port traffic analytics
 - ✓ Berth and anchorage identification
 - ✓ Port efficiency
 - ✓ Port congestion
 - ✓ Port connectivity Index

*Digital Port and Maritime Service-
The FUTURE of Hong Kong !*

Opportunities – Port Connectivity Support

CM Ports in SZ

- Mawan / Shekou / Chiwan
- Create a smart port open platform to empower the logistics supply chain

Nansha e-Port in GZ

With GZIS (Inst. Software App. Tech., GZ, CAS) to extend blockchain from Nansha to HK

Zhuhai e-Port

Extend eTFP (Trade Fac. Platform) to facilitate cross-boundary trades through HK with GBA ports

粵港兩地海關合作推行「跨境一鎖計劃」
LSCM 協助研發電子鎖 (E-lock) 技術
為大灣區物流業打造快捷便利清關通道

LSCM與香港海關合作 研發電子鎖 (E-lock) 技術
便利中港貨運 拓展多元用途

▼香港海關陸路邊境口岸科
總指揮官賴子榮指，使用
E-lock可節省約2小時的清關
時間，便利業界。

▼利用E-lock將貨車上鎖後，
系統便可實時監控貨物運送
流程，如出現異常情況，系
統便會發出警報。

5日，E-lock系統已為逾6,800車次的疫苗運送提供監
控，使一千萬劑疫苗安全送達各社區接種中心及公營醫
院，供市民接種。

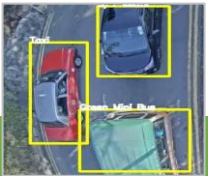

唐志鴻則指，除了用於貨物清關及疫苗運送外，

Smart Mobility

Smart Traffic

Smart Traffic Control

- First to use video analytics to obtain real-time traffic data for controlling traffic signals
- Allocation of green time based on queue length

With Smart Control

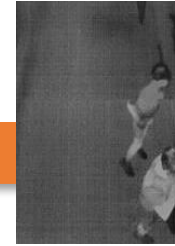

Without Smart Control

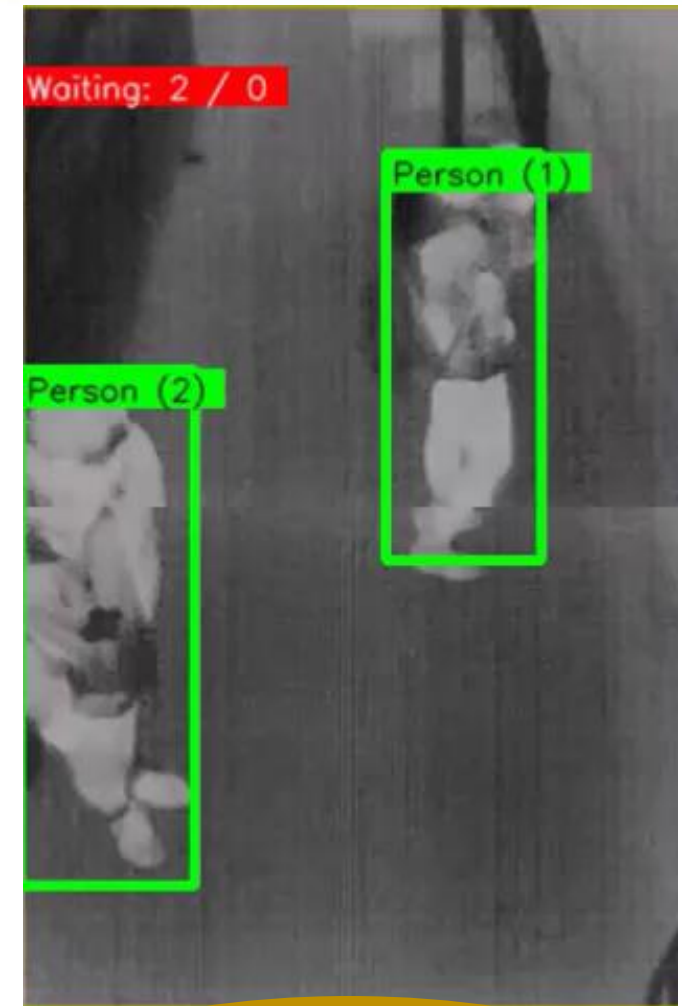

Waiting time reduces from 400 seconds to 145 seconds

Pedestrian Detection

- First to use thermal cams for pedestrian detection
- Automatic activation and cancellation of crossing requests

AI to Solve Traffic Jam Problem

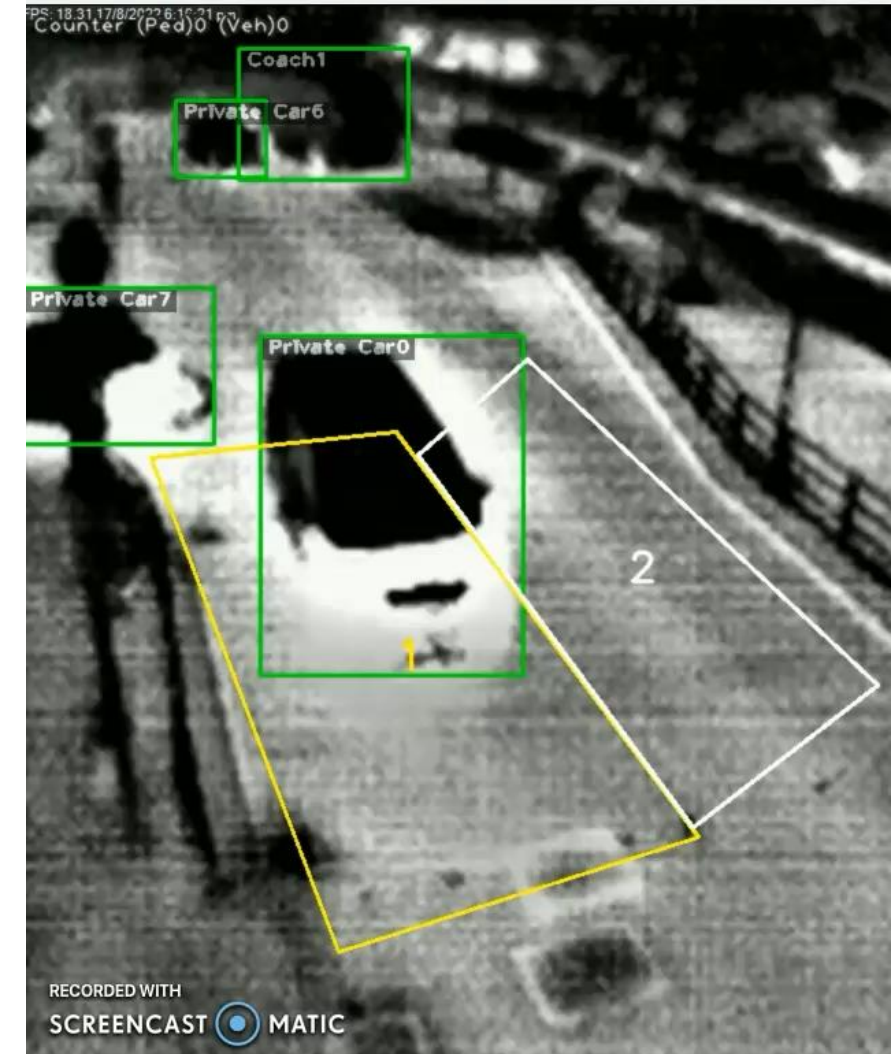

AI to Protect Pedestrians' Safety, Speed Up Vehicle Traffic!

Smart Traffic

Smart Area Wide Control

- First to combine optical and thermal cams for pedestrian and vehicle detection
- First to coordinate multi-junction pedestrian and vehicle flows

*First Ever Attempt
to Solve a Regional
Traffic Jam
Challenge!*

Smart Traffic

Traffic Flow Monitoring

- Enhance road traffic safety for drivers and pedestrians
- Handle immediate incident or emergency management

*Minimizing
Traffic Offenses*
